

Our Christmas Tree!

Written by: Nicole Muir and Beth Hunter.
Illustrations: Art by Irasutoya arranged by Aysha Imtiaz.

Did you know that a Christmas tree is a special type of tree?

It's called an evergreen tree because it stays green all year.

Giant Sequoia

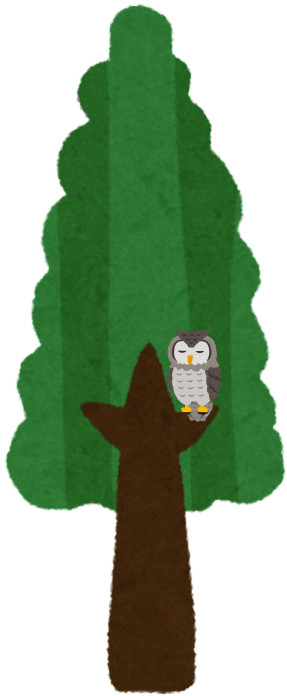

Cedar

Pine

Fir

There are a lot of different evergreen trees! Here are a few.

Evergreen trees have many parts.

An evergreen tree has needles.

The needles help the tree stay green all year!

An evergreen tree
has pinecones.

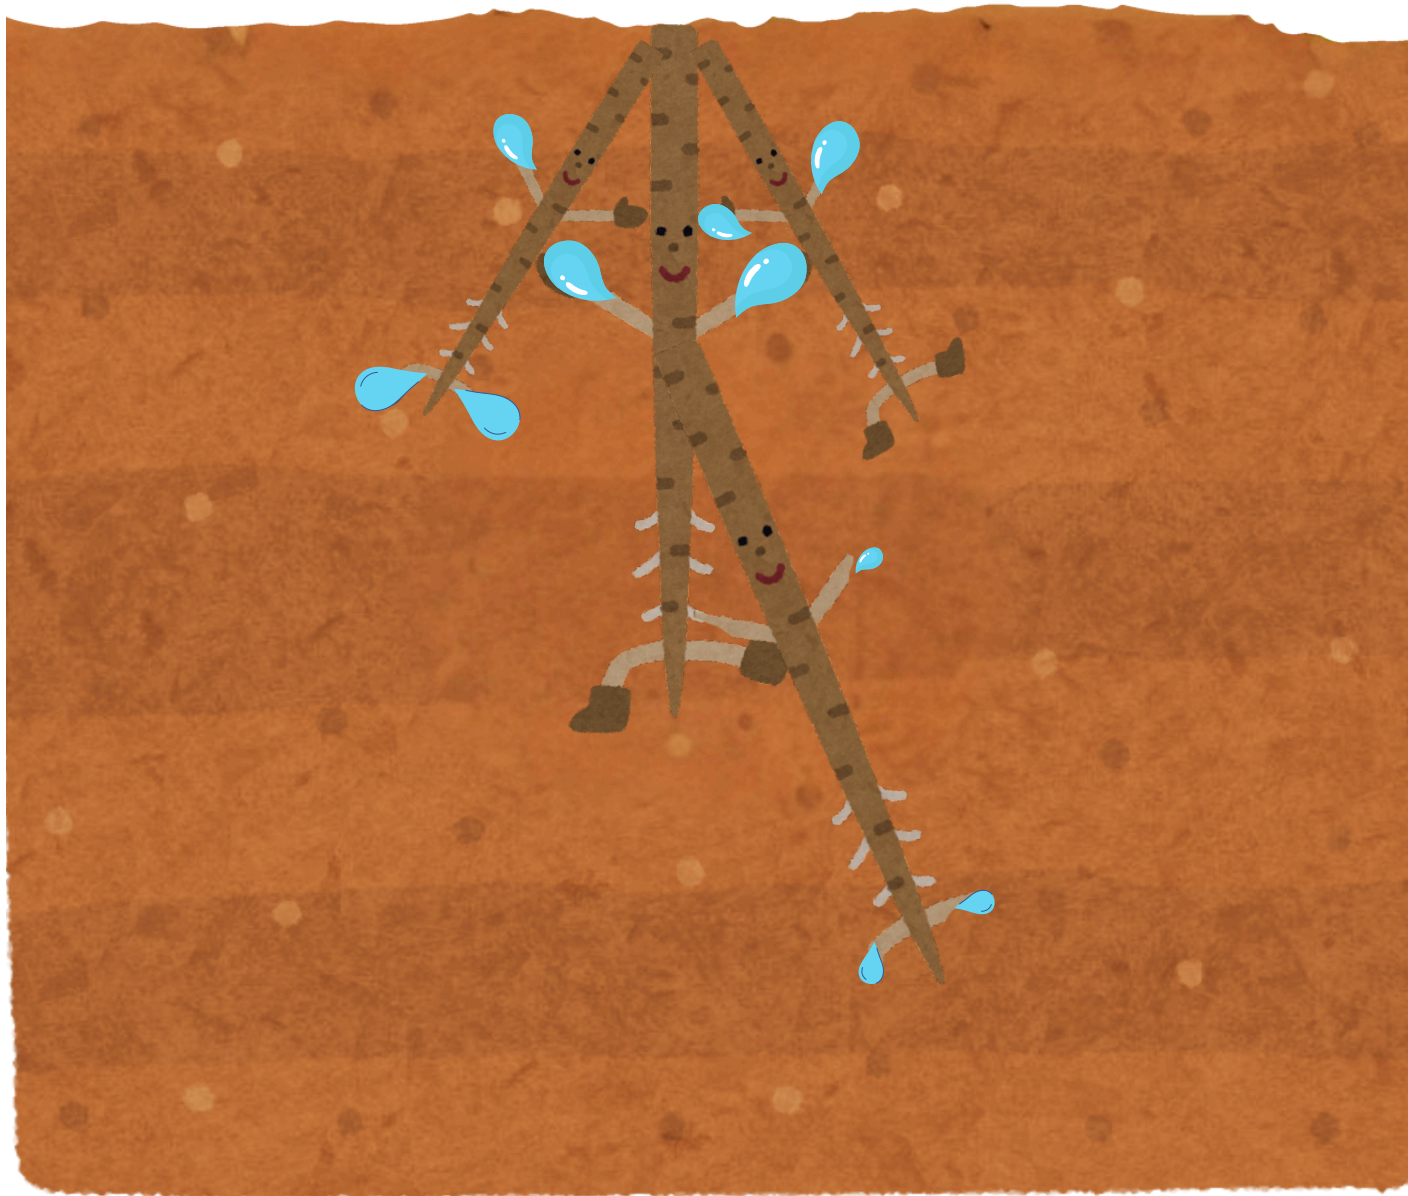

The pinecones are full of yummy seeds. Some animals like to eat them!

An evergreen
tree has
roots.

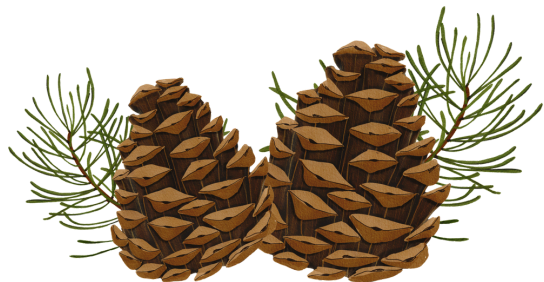

An evergreen
tree has a trunk.

An evergreen tree needs all of
these parts to be ready for
Christmas!
