U2-2.3b Challenge up: You are the conductor

What to do

You are the conductor, and you need to get Edison to play the song of your choice. Write a program for Edison so that the robot plays your song. Test out different tempos to see which works best.

If you want, you can also program the robot to move or dance to your song.

Once you have your program ready, run it in Edison to have the robot perform your musical masterpiece!

Hint!

Which block tells Edison to **play music in the background**?

1. What song did you choose? Write or draw about how your musical performance turned out!

A large, empty rounded rectangular box with a thick black border, intended for the student to draw or write their response to the challenge.
