Artwork by Bella Hunter, Beth Hunter, and Jake Hunter.

1-LS1-1 From Molecules to Organisms, Structures and Processes: Use materials to design a solution to a human problem by mimicking how plants and/or animals use their external parts to help them survive, grow, and meet their needs.

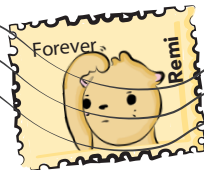

EXPLORE

DISCOVER

EXCITE

Dear Parent,

Books take children to imaginative worlds, introducing them to new characters, places, and ideas. Regular reading sparks their creativity, encourages imaginative play, and nurtures their ability to think outside the box.

Aloha,

Beth and Jake

Interesting Inventions

We make things to be like animals. Connect the dots to match the inventions to an animal trait.

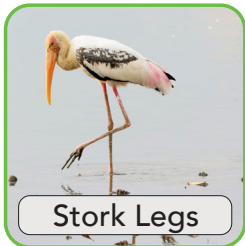

Animals

Inventions

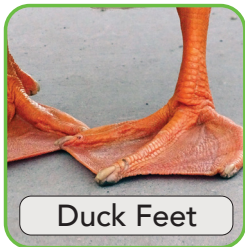

Animals

Stork Legs

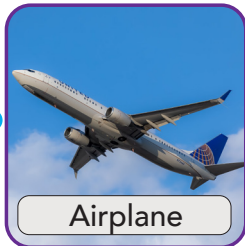

Bird Wings

Duck Feet

Inventions

Airplane

Fins

Stilts

All the animals liked Remi and Remi liked all the animals.

The animals did fun things. Remi wanted to be like them and do fun things too.

Remi had sore feet. So, Deer helped him make shoes that were neat!

Remi saw the Elephant's spray. He said,
"Hey, me too! I want to play!"

Remi saw Turtle safe in her shell. So, he made a home to be safe in as well!

“Swimming is fun,” said the ducks on the lake. What do you think Remi will make?

The stork was so tall that he did not get wet at all. Remi made stilts to walk in the lake.

Remi saw birds in the sky. So, Remi made wings to help himself fly!

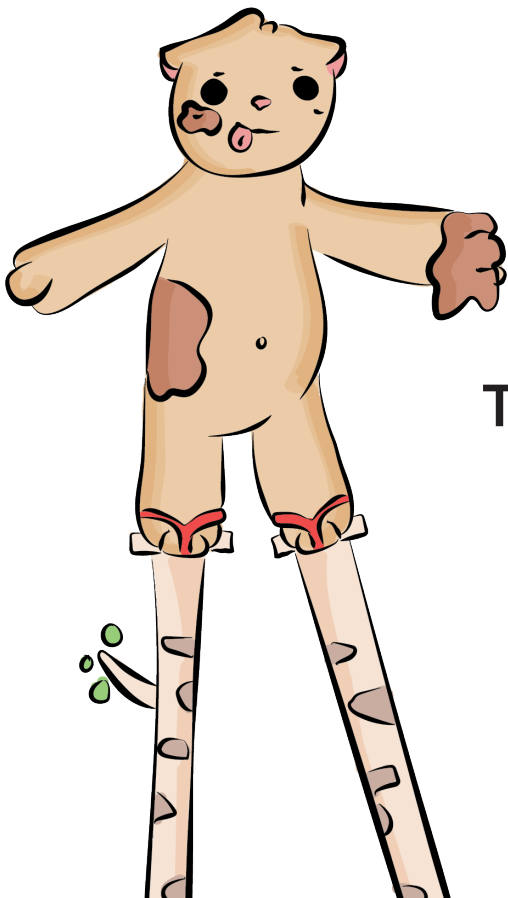

Now Remi can do many new things, but he was still looking for one more friend.

Then, Remi met whale who helped him play a new way. Remi swam in the water all day.

Remi liked playing with all the animals and all the animals liked Remi's inventions too!

The End

GLOWWORM

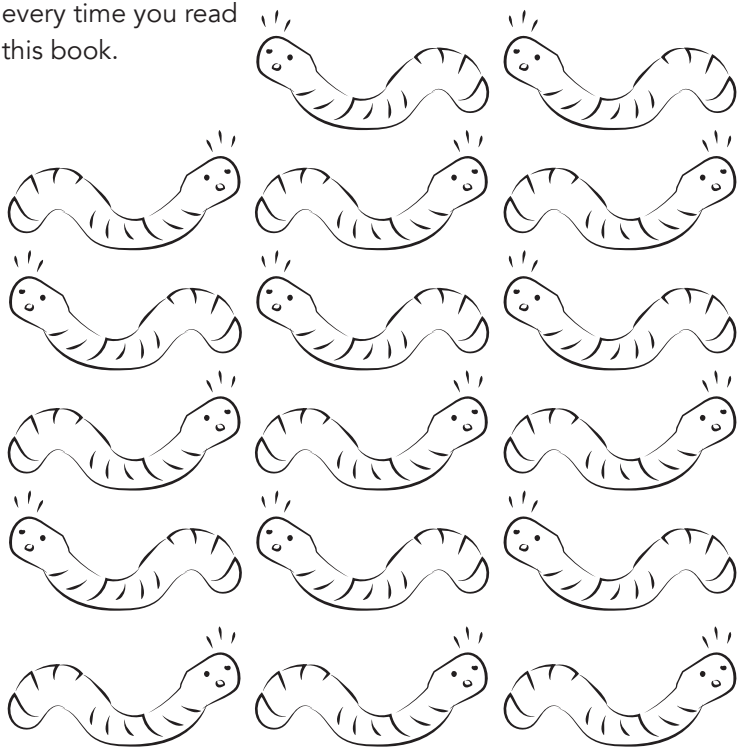

Reading Chart

Read to me!

Color one glowworm
every time this book
is read to you.

I can read!

Color one glowworm every time you read this book.
