Toby likes shopping with his mom. Maybe he can get a treat if he is good today.

Toby wanted some fun.

“Mom, can you go a little faster?” said Toby.

He was ready to try his best idea yet.

He would try to slide across the floor. Off he went! But, when it was time to slide, he didn't go far. Toby fell!

"I need better shoes to help me slide!" Toby said.

Back at home, Toby began to experiment to see which things were slippery. He needed something slippery to help him slide well.

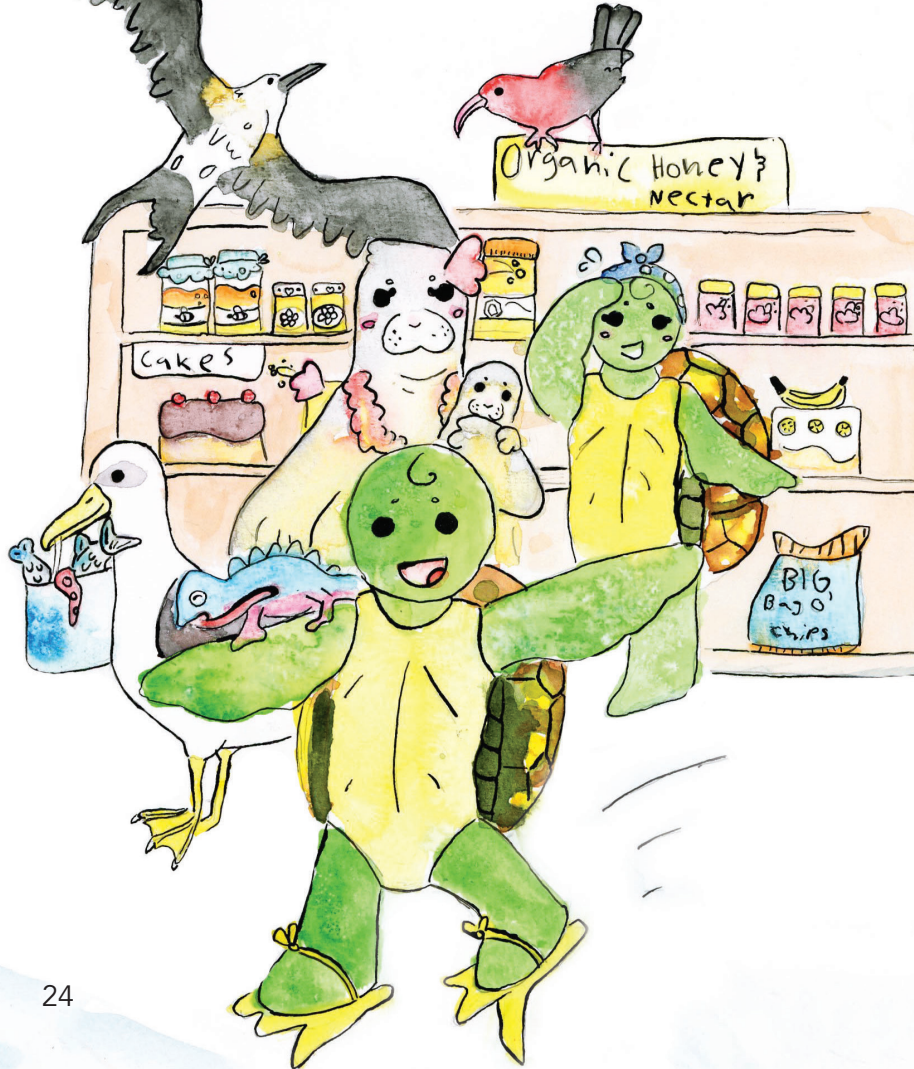

Toby searched for slippery stuff all around his house to use for his new slip 'n slide shoes.

Toby tested the slipperiness of sandpaper, wood, cardboard, foil, plastic, and banana peels.

Do you know which material
Toby used for his shoes?

On his next trip to the store,
Toby put on his slip 'n slide
shoes. "One, two, three,
WHEE!" he called out.

The store is now much more
fun than before!
