The next day, Gophie helps too. He sees lots of new birds at the feeder! Can you tell which birds have not been here before?

5

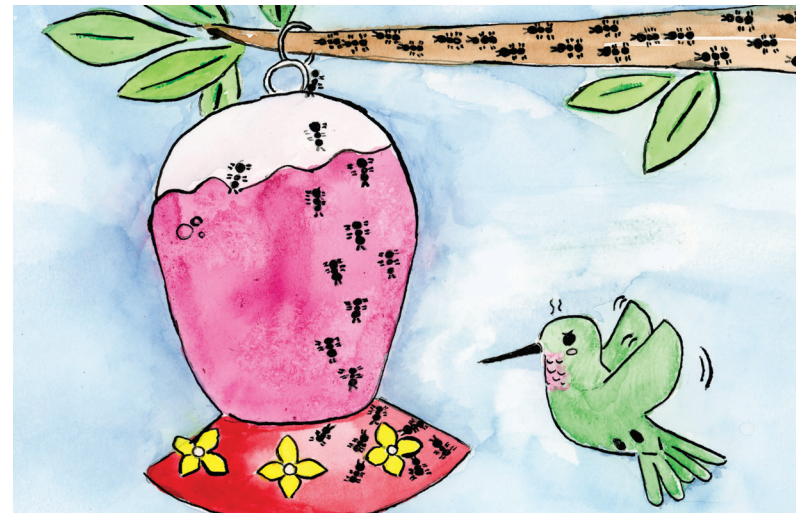

Soral has fun putting bird seed out in the yard to start her experiment.

2

Today, Soral and Gophie are going to put out bird seed and watch the birds that come to eat.

1

Oh no! There are ants on the hummingbird feeder. Soral must move it so that the ants can't find it again.

6

On the first day of bird watching, Soral sees no birds. She is sad. Mom said, "The birds need more time to find the food."

3

The next day, Soral sees little brown birds eating her seeds. She is excited! She runs to get her journal.
