Artwork by Bella Hunter, Beth Hunter, and Jake Hunter.

1-ESS1-1 Earth's Place in the Universe:

Use observations of the sun, moon, and stars to describe patterns that can be predicted.

I ♡ STEM Tot®

Dear Parent,

Once your child is beginning to read on their own, take turns reading from a book. Read one page to them and then ask your child to try reading a page to you. Keep the reading practice enjoyable by only practicing a little at first. They can try again tomorrow.

Aloha,

Beth and Jake

TANGRAM TILES

Tangrams use seven tiles. You can make the tiles into many things.

Cut out your tiles.

The Sun

The Sun is the closest star to Earth.

The Moon

The Moon reflects the Sun's light.

Stars

Stars look small because they are far away.

Make the Sun with
your tiles.

Make the Moon
with your tiles.

Make a star
with your
tiles.

A long time ago, twins Atsu and Kai were getting ready for a birthday party.

"When is the party?" they asked.
"The stars will tell us," Grandma said.

One day, they saw the stars that they were looking for!

It was time for the party. The twins helped Mom make star cakes.

They had fun. It was the best party ever!

The stars helped tell them that it was their birthday month!

The End

Arrange
your tiles to
make the
constellation
Taurus.

GLOWWORM

Reading Chart

Read to me!

Color one glowworm
every time this book
is read to you.

I can read!

Color one glowworm every time you read this book.
