1-PS4-4 Waves and Their Applications in Technologies for Information Transfer:

Use tools and materials to design and build a device that uses light or sound to solve the problem of communicating over a distance.

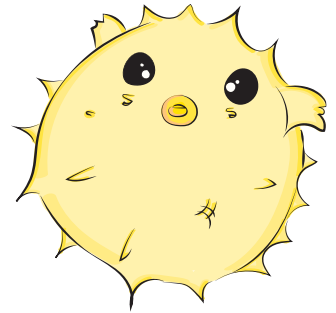

Dear Parent,

Reading to your child will help them to concentrate and focus. Regular reading sessions improve a child's attention span and will enhance their ability to concentrate on tasks later in life.

Aloha,

Beth and Jake

Animals Can Talk

Animals can communicate by using sound or light to send signals to animals of their same type.

Dolphins talk using sound.

Some squid talk using light. They glow in the dark.

Whales talk using sound.

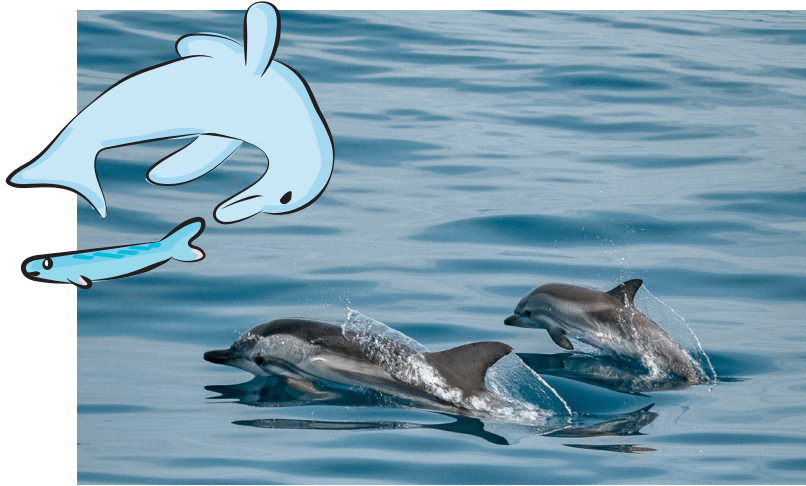

Lanternfish talk using light. They glow in the dark.

The firefly talks using light. It glows in the dark.

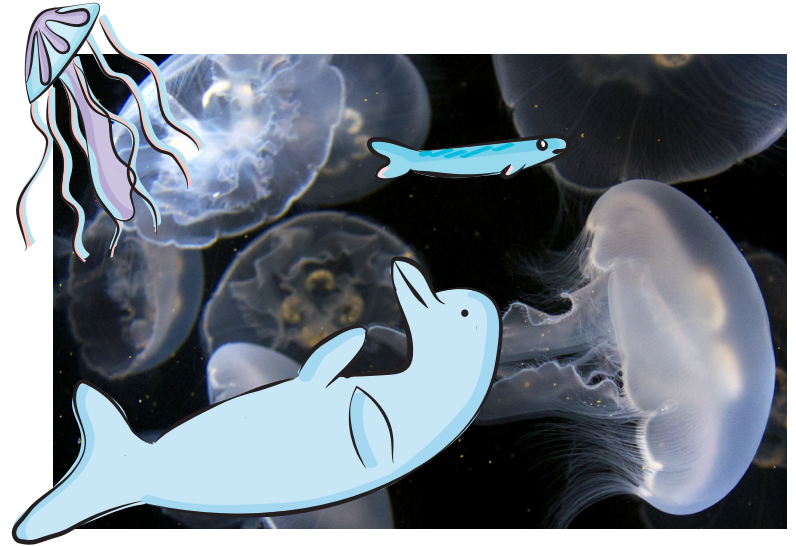

Kaleo es un delfín. Hace clic para hablar y nada todo el día. A El le gusta jugar.

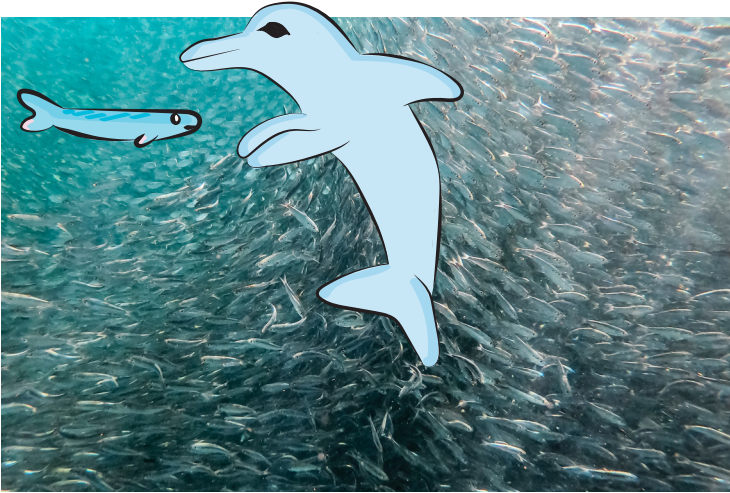

Kaleo is a dolphin. He clicks to talk and swims all day. He likes to play.

¡A Kaleo solo le gusta comer medusas! No comerá pescado.

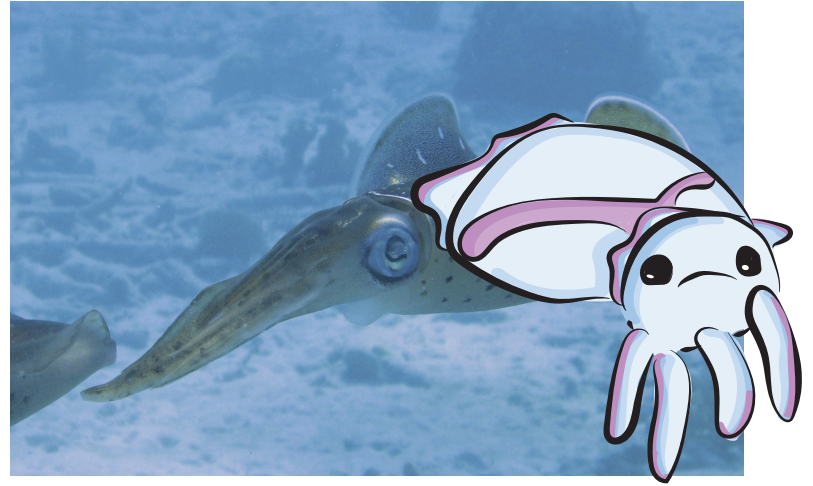

Kaleo only likes to eat jellyfish! He will not eat fish.

“¿Cómo te llamas?” Kaleo preguntó a un pez.
“Jovi” decía. “Estoy perdido. ¿Me puedes ayudar?”

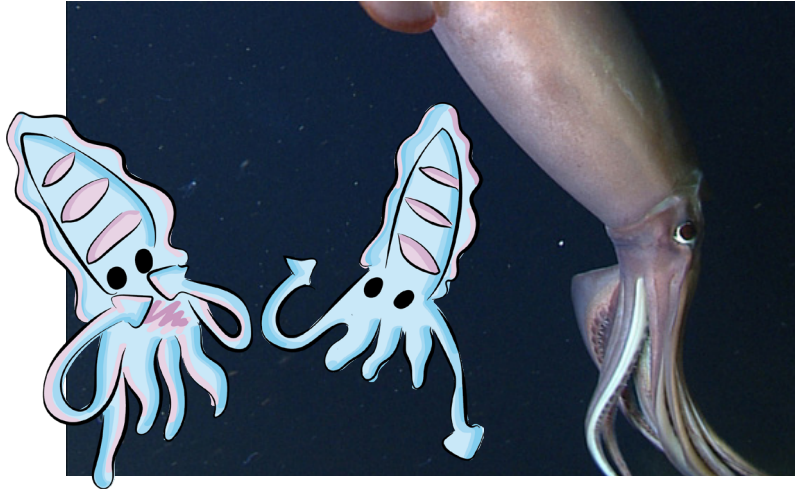

“What is your name?” Kaleo asked a fish.
“Jovi” it said. “I am lost. Can you help me?”

“Aquí hay unos calamares. Quizás hayan visto a tu familia”, dijo Kaleo.

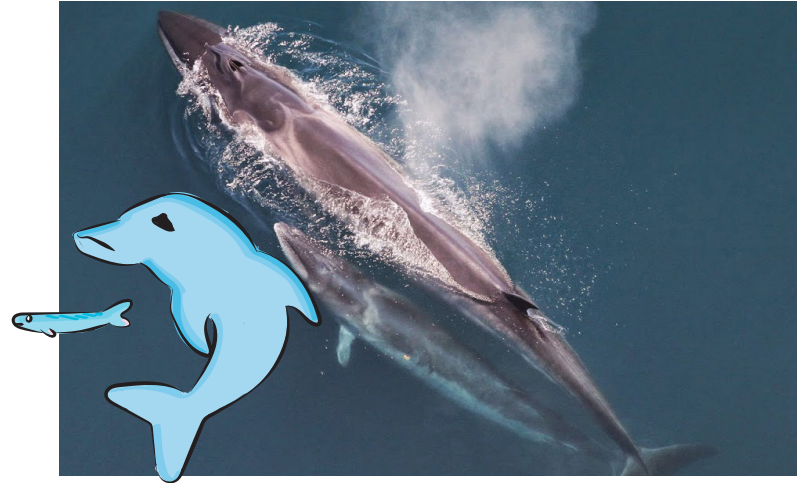

“Here are some squid. Maybe they have seen your family,” said Kaleo.

El calamar hablaba usando colores. ¡Habían visto a la familia de Jovi! “Sigue nadando”, dijeron.

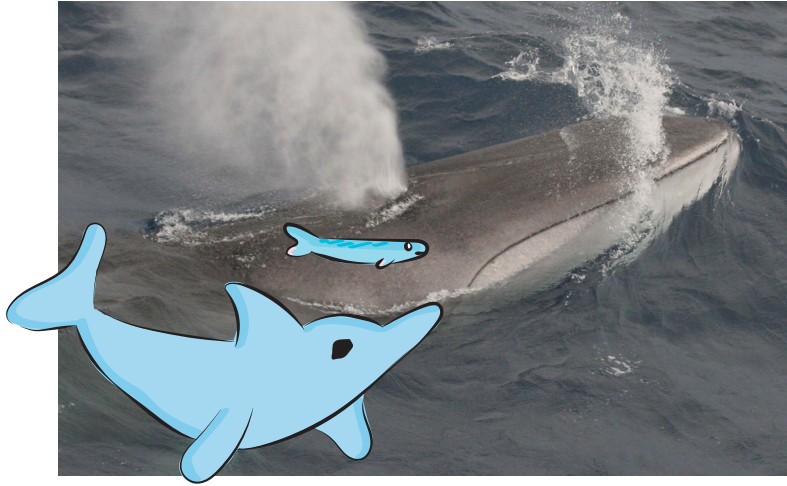

The squid talked using colors. They had seen Jovi's family! “Keep swimming,” they said.

Siguieron nadando y se encontraron con una gran ballena de aleta. “¿Has visto a mi familia?” preguntó Jovi.

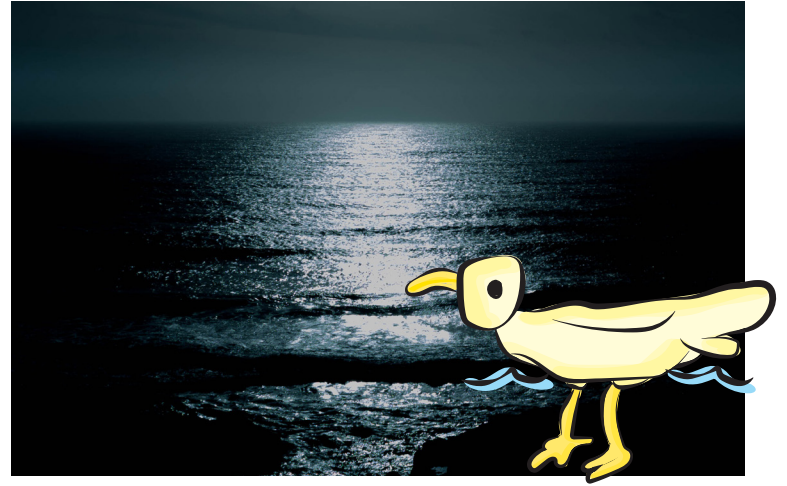

They kept swimming and met a big fin whale. “Have you seen my family?” asked Jovi.

La ballena usó su fuerte voz para llamar a su manada. ¡Sí! ¡Habían visto a la familia de los peces!

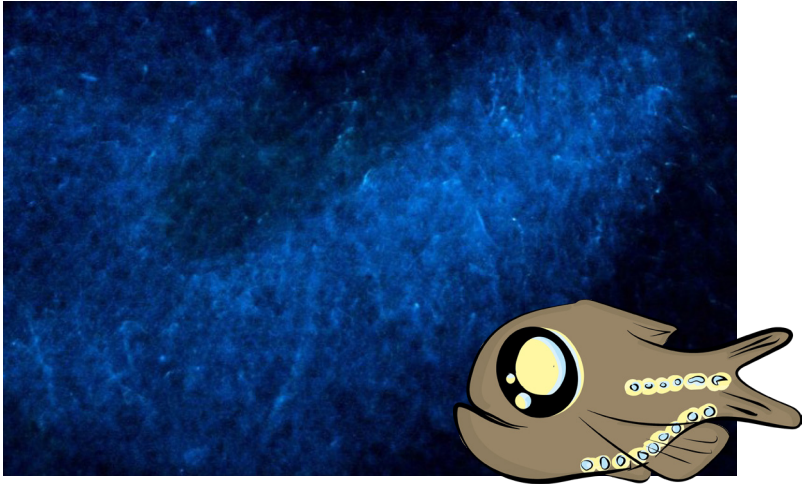

The whale used his loud voice to call out to his pod. Yes! They had seen the fish family!

Kaleo y Jovi estaban en camino. Pronto oscureció. Se sintieron perdidos.

Kaleo and Jovi were on their way. It was soon dark. They felt lost.

Vieron un brillo en el agua oscura. ¡Oh, no!
¿Qué brilla así? Ellos estaban asustados.

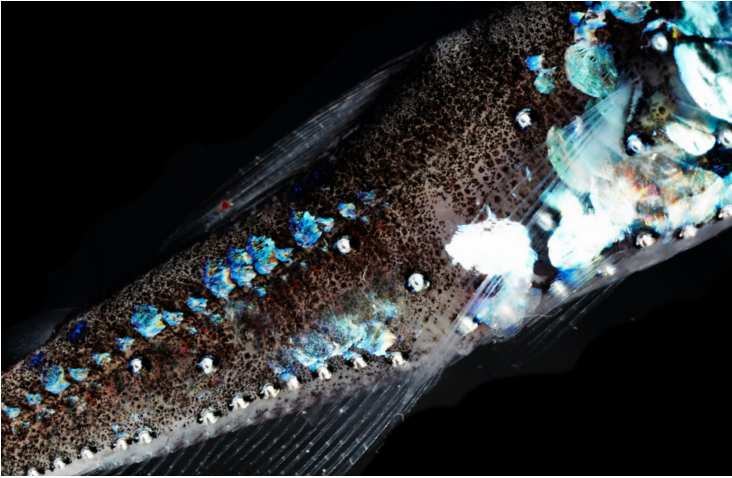

They saw a glow in the dark water. Oh, no! What glows
like that? They were afraid.

El resplandor provenía de un banco de peces
linterna.

The glow was from a school of lanternfish.

Los peces usaron sus puntos brillantes para decirle a Jovi y Kaleo adónde ir.

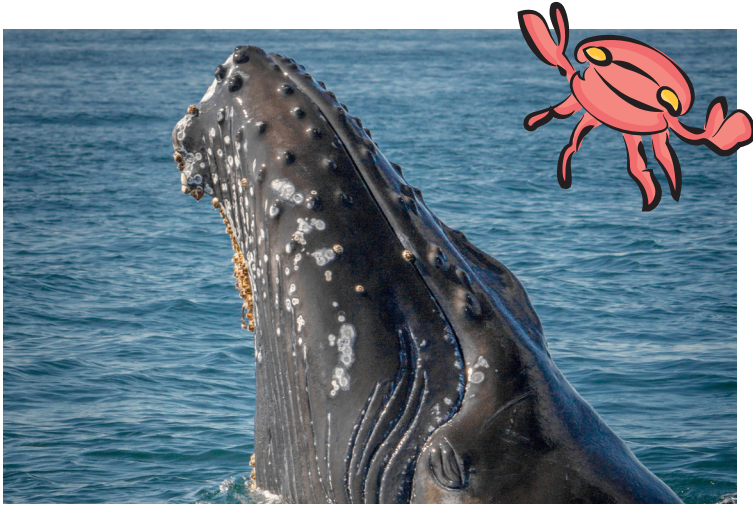

The fish used their glowing spots to tell Jovi and Kaleo where to go.

El pez linterna se asustó. Entonces '¡Puf!' Se habían ido.

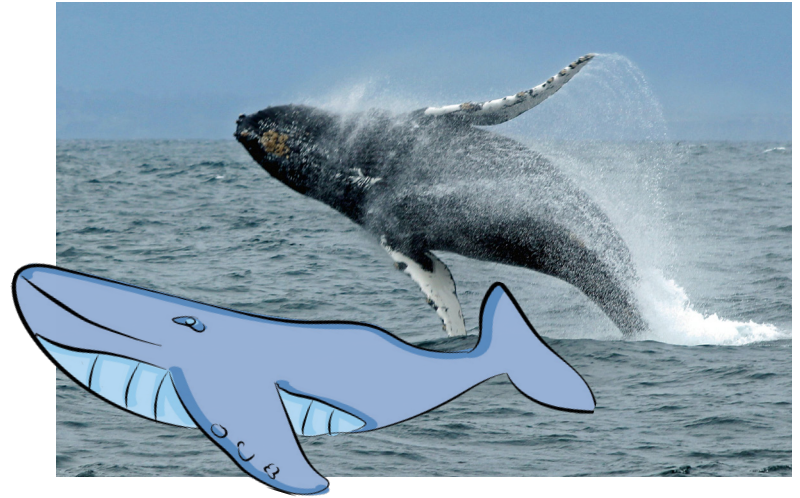

The lanternfish got scared. Then 'Poof!' They were gone.

Kaleo y Jovi escucharon un grito fuerte y lento.
Una ballena jorobada les hablaba.

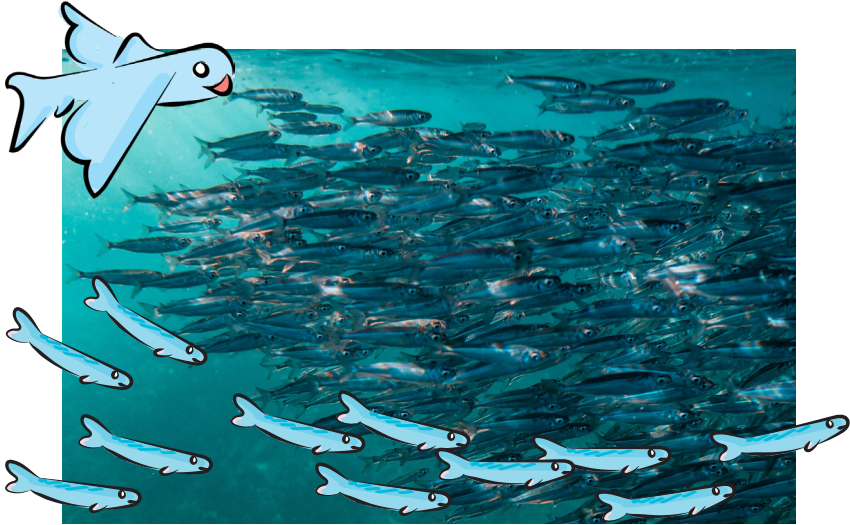

Kaleo and Jovi heard a loud, slow cry. A humpback whale was talking to them.

La ballena los llevó a la familia de Jovi.

The whale took them to Jovi's family.

¡Los animales habían ayudado a Jovi a encontrar el camino a casa!

The animals had helped Jovi find her way home!

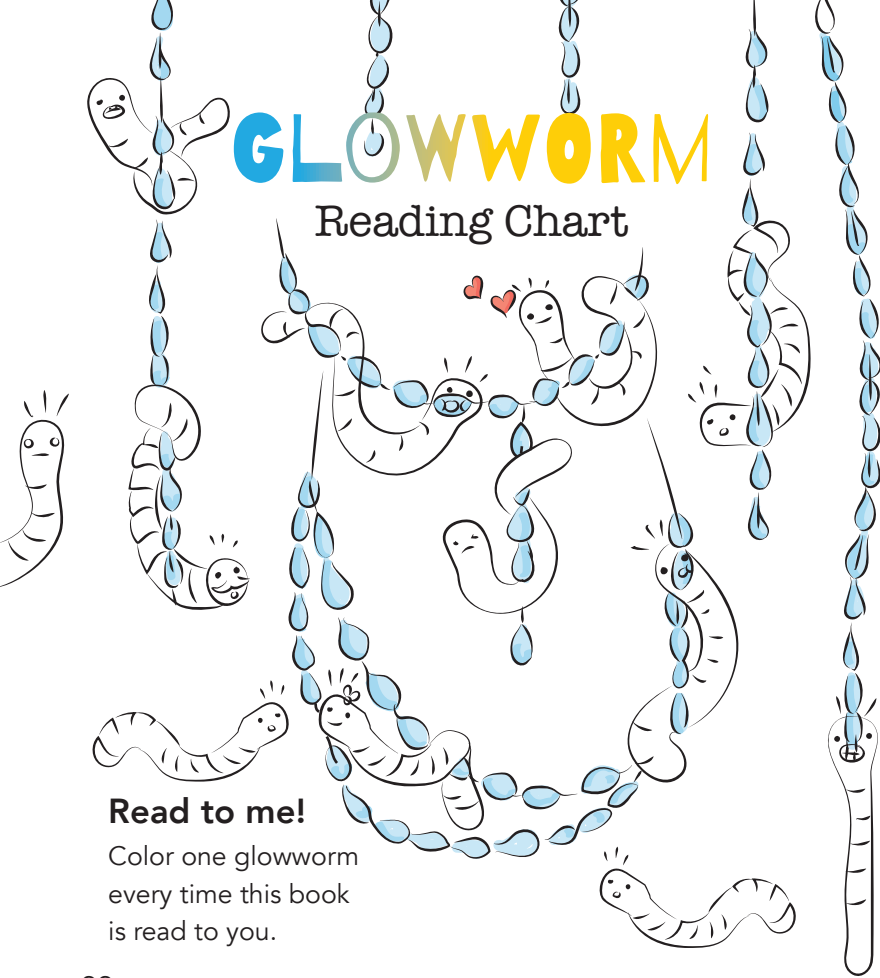

Kaleo estaba feliz! ¿Puedes emitir un sonido como el de un delfín feliz?

Kaleo was happy! Can you make a sound like a happy dolphin?

GLOWWORM

Reading Chart

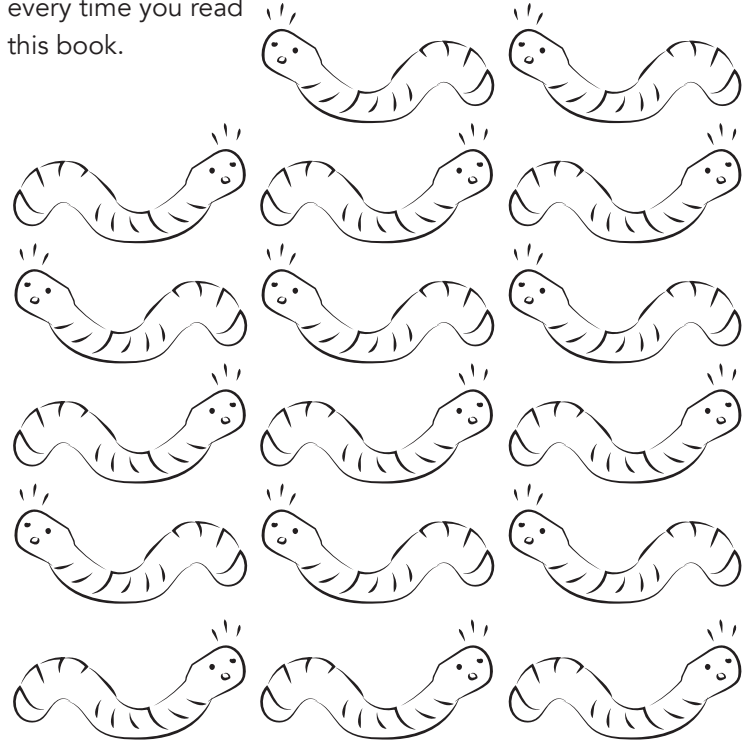

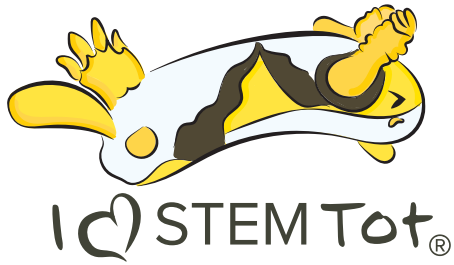

Read to me!

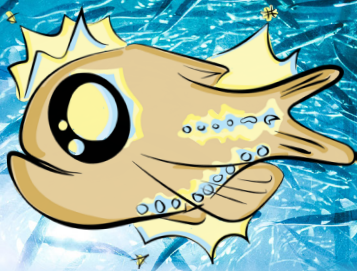

Color one glowworm every time this book is read to you.

I can read!

Color one glowworm every time you read this book.
